Full Stack Developer

Full stack developer skilled in Javascript, React and Python. With my background in Hospitality and experiences meeting different people, I understand the needs of individual users. I take a creative approach to problem solving and build scalable, user-friendly solutions for a diverse set of users. My eagerness to learn strengthens my skills to create advanced technological solutions for worthy causes to change the world.

Technical Skills

HTML, CSS, React, JQuery, Sass, Bootstrap, Materialize, Semantic-UI-React, Python, Django, Javascript, Express, SQL, Sequelize, MongoDB, Mongoose, Express EJS Layouts, Typescript

Projects

March 2020

Spanish21 – JavaScript, CSS/HTML

Blackjack game built in vanilla Javascript. Built recursive dealer check functions to implement game rules. Styled with CSS/HTML.

April 2020

Block Party – Bcrypt JS, Express EJS Layouts, Javascript, Materialize, Node.js, Passport, SQL, Sequelize

Web application built with Javascript to bring you closer to your local community. Back-end built with Express, Node.js and secured with Bcrypt and passport. Database handled with MongoDB/Mongoose. Front-End built with Express EJS Layouts and styled with Materialize.

May 2020

Dodo Swap – Bcrypt, Express, Javascript, MongoDB, Mongoose, Node.js, React, Semantic-UI-React, Typescript

Co-developed secure web application with Javascript and Typescript that allows Animal Crossing players to arrange meetups to catalogue ACNH items. Database built with mongoDb/mongoose. Built and styled front end with React and Semantic-UI-React.

June 2020

Tasty Roots – Express, Javascript, JWT-decode, MongoDB, Mongoose, Node.js, React, Redux, Semantic-UI-React

Co-developed secure web application with Javascript that helps preserve family recipes. Back-End built with express, Node.js. Database built with MongoDB/Mongoose and used Redux for state management. Front-End built with React and styled with Semantic UI React.
